

Felix Schoeller Packaging

FlexPaper pure

FlexPaper pure

The natural cycle

Paper composites with a paper content of 95% of the packaging.
Suitable for disposal in the recovered-paper cycle.

Product properties

- Paper composites produced by extrusion lamination, with 95% paper content in the packaging
- Lidding films and pouches (FFS packaging, vertical/horizontal) suitable for further processing on standard packaging machines
- Moderate seal strength
- Optimum print results in flexo and gravure printing

Your benefits

- Optimum contribution to the circular economy
- The paper base is made from sustainable raw materials (FSC®-certified pulps from sustainably managed forestry)
- Disposal in the recovered-paper cycle
- Natural feel and an ecological eye-catcher at the point of sale (POS)
- Suitable for packaging a wide range of products

Our packaging solutions

for optimal protection of your products.

Renewable raw materials

95% paper content

Sustainability

The environment-friendly paper base, made from renewable FSC®-certified pulps, provides a sustainable packaging experience.

Haptics

The printed paper surface offers you the look and feel of a natural product at the POS.

Light protection

Using paper as a component in the packaging composite gives your packaging 'green' protection against light that then no longer has to be generated by printing inks.

Flexo/gravure printing

The surface quality of our flexible paper composites gives you first-class results with the traditional packaging printing processes – flexo and gravure printing.

Moderate seal strength

Processing of our paper composites is optimised for the respective type of packaging and the packaging process, including adjustable seal strengths.

For compelling answers to your questions about sustainable packaging solutions.

Certified paper composites for your packaging

Felix Schoeller paper composites can be labelled with certificates in line with your wishes – individually, in accordance with your requirements and tailored to each specific target group. To ensure this, we work with independent certification institutes.
